

# Tech 2-3

≡ 12.07.16 ≡

1

**Flippity** allows you to take a Google Spreadsheet and turn it into a fun, innovative way to introduce or review materials for your students. You can develop flashcards, a quiz show, review vocabulary, create MadLibs or certificates. You can even use Flippity to randomly call on students in your classroom. Don't forget to use the Google Add-on to really simplify things!

2

Would you like an alternative to finding videos on YouTube?

**Next Vista** is a nonprofit video sharing site that offers videos that are free of advertising. Videos are separated into two different categories: The Light Bulbs category are videos that teach you how to do something or provides an explanation of a topic and The Global Views category contains videos created to promote understanding of cultures around the world.

## Alternatives to YouTube
